PRESS RELEASE

BMG promotes employees to new heights.

Beaverton, MI (June 12, 2026) – BMG is a global leader in full-service thermoforming packaging and automation technology. This group of highly skilled personnel has historically been a global leader in developing and manufacturing industry-changing improvements across the entire thermoforming end-to-end process, benefiting packaging manufacturers for years. BMG continues to engineer innovations that provide its customers with world-class technology solutions, shorter developmental lead times, outstanding executional design flexibility, and access to its global parts and services support systems.

BMG continues to strengthen its roster by promoting from within.

In its continuing efforts to put the best people in the right positions, BMG is pleased to announce the promotion of Jason Foster to Vice President of LEAN and BMGx Business Systems. In this targeted new role, Mr. Foster will lead the company's continued efforts to strengthen operational excellence and direct efforts to embed the BMGx Business System across the entire global organization. These two programs specifically enhance the connectivity and cross-functional advantages of continuous improvement at the highest and most expedient levels while creating an environment where innovation builds short and long-term opportunities that lay the foundation for targeted growth. Jason's guidance in these efforts supports the company's accelerated growth plans and continued leadership in innovative product development for the worldwide thermoforming market.

Mr. Foster, who previously served as Senior Director of LEAN at BMG, brings extensive experience in lean manufacturing, operational excellence, and continuous improvement initiatives within the manufacturing sector. He has a proven track record of driving efficiency and implementing strategic lean principles across multi-site organizations.

"I am honored by this promotion and excited to continue building on our momentum," said Jason Foster. "I look forward to further embedding the BMGx Business System and driving lean excellence across all areas of BMG to support our growth and customer success."

Jason's efforts in LEAN and BMGx implementations will be a driving force in BMG's operational architecture. These organizational matrices will have a positive impact across the entire BMG global network and provide the necessary processes to better serve their worldwide customer base in an ever-changing thermoforming marketplace.

"We are thrilled to promote Jason to Vice President of LEAN and BMGx Business System," said Tim Carpenter, CEO of BMG. "His deep expertise and proven leadership in lean initiatives make him the ideal person to drive our next level of operational excellence and business system deployment."

BMG continues its commitment to assisting customers in need of thermoforming packaging/automation solutions with an acute awareness and attention to detail when it comes to providing true turnkey solutions while taking into account the need for shorter developmental timelines, increased ROI, reduced cost of doing business, and an unparalleled service commitment rivaled by none worldwide.

BMG. Shaping Next.
