PRESS RELEASE

BMG hires a new Director of Operations

Beaverton, MI (April 05, 2026) – BMG is a global leader in full-service thermoforming packaging and automation technology. This group of highly skilled personnel has historically been a global leader in developing and manufacturing industry-changing improvements across the entire thermoforming end-to-end process, benefiting packaging manufacturers for years. BMG continues to engineer innovations that provide its customers with world-class technology solutions, shorter developmental lead times, and outstanding executional design flexibility.

BMG has hired a new Director of Operations at its global headquarters in Beaverton, MI

They are excited to announce that Don Dobler has joined the team as Director of Operations to Drive Manufacturing Excellence and Growth.

Mr. Dobler, who joined BMG back in March of 2026, brings over 20 years of experience in engineering, manufacturing, and operational leadership across a wide range of industries and verticals worldwide. He has a proven track record of driving performance, leading cross-functional teams, and delivering innovative customer-focused solutions. As a driving force behind discovery, he has been tasked with working on creating what's next for their customers and the thermoforming industry at large. In his role as Director of Operations, Don will oversee the overall operational strategy and companywide execution, focusing on driving growth, improving performance, and supporting BMG's long-term objectives in the thermoforming market.

Most recently, Don served as General Manager of Operations at Conair, where he led extrusion operations, aligned production and engineering strategies with company objectives, and drove continuous improvement initiatives to enhance quality, efficiency, and profitability. Throughout his career, he has successfully managed complex capital projects, developed high-performing teams, and implemented data-driven processes to optimize operations.

"I am excited to join BMG at such a crucial time in its growth," said Don Dobler. "My focus will be a continuous data-driven approach to strengthening our operational resilience, investing in our workforce capabilities, and adopting new technologies to ensure we remain at the forefront of the thermoforming industry."

Don holds a Master of Business Administration from Northwood University and a Bachelor of Science in Mechanical Engineering Technologies from Central Michigan University.
