PRESS RELEASE

BMG provides leadership through employee promotion.

Beaverton, MI (May 26, 2026) – BMG is a global leader in full-service thermoforming packaging and automation technology. This group of highly skilled personnel has historically been a global leader in developing and manufacturing industry-changing improvements across the entire thermoforming end-to-end process, benefiting packaging manufacturers for years. BMG continues to engineer innovations that provide its customers with world-class technology solutions, shorter developmental lead times, outstanding executional design flexibility, and access to its global parts and services support systems.

BMG is all about providing new opportunities for success.

BMG is excited to announce that Wouter Roos, who currently heads BMG's project management department, has been promoted to General Manager of Global BMG GN Products, while retaining his project management responsibilities. He will now also play a key role in driving BMG's global growth strategies for products, parts, and customer services. He will work with BMG teams across North America and Europe, creating structure and focus with key individuals from both teams.

Mr. Roos has been with BMG (formerly GN) for 4 years and brings extensive experience in project management, aftermarket support, and operational leadership within the thermoforming industry. He has a proven track record of delivering results through strong team leadership, cross-functional collaboration, and a deep commitment to customer success and business growth.

In his new role as General Manager of Global BMG GN products, Wouter will support, guide, and lead the company's global product portfolio, focusing on product development, client engagement, organizational effectiveness, and building a high-performing network of teams across the globe that will support BMG's long-term objectives in the thermoforming market.

"I am honored by this promotion and look forward to leading the global growth of our BMG GN portfolio," said Wouter Roos. "This is an exciting time for BMG as we build on GN's strong legacy of quality products while delivering the high level of service our customers deserve."

"BMG is pleased to promote Wouter to General Manager of Global BMG GN Products," said Tim Carpenter, CEO at BMG. "He has repeatedly demonstrated exceptional commitment to the team and the company, and we are excited to have him driving further success in this vital area of our business."

BMG continues its commitment to assisting customers in need of thermoforming packaging/automation solutions with an acute awareness and attention to detail when it comes to providing true turnkey solutions while taking into account the need for shorter developmental timelines, increased ROI, reduced cost of doing business, and an unparalleled service commitment rivaled by none worldwide.

BMG. Shaping Next.
