PRESS RELEASE

April 3, 2025

Be prepared for what's coming, or just bring your tech up to speed.

Beaverton, MI (April, 2025) – BMG is a global leader in full-service thermoforming packaging and automation technology. This group of highly skilled personnel has historically been the leader in the development and manufacturing of industry-changing improvements for the entire thermoforming end-to-end processes, which has benefited plastic products manufacturers for years. BMG continues to engineer innovations that provide its customers with world-class technology solutions, shorter developmental lead times, and outstanding executional design flexibility.

Whether it's Maintenance kits or Upgrades, be prepared for the future.

Whatever the need, BMG can fill the bill. They take pride in being able to accommodate the needs of a full spectrum of clients from entry level all the way through to custom solutions in order to offer precisely what their clients might need and when they need it in their maintenance and upgrade processes. In today's circular economy, the wants and needs of consumers drive the need and have to be met with functional solutions and deliverable timelines.

BMG has over 110 years of developmental and executional expertise in many different verticals that touch many end users. Their specialists know your needs and the equipment necessary to meet your thermoforming goals.

Upgrades are easy when you know where to go.

The next step in control evolution! BMG offers a wide variety of Upgrade kits for all kinds of technology. The NEXTGEN Control kit upgrade, for example, is the next step in a long line of new revolutionary system technology developments for the control of your operational expertise. This upgrade is available for existing and newly manufactured BMG thermoforming platforms. It was designed with the next generation of operators in mind. For ease of visual status, it has simplified, modern, and intuitive screens. Easy to learn and use regardless of operator experience.

This upgrade provides easy two-click access to any status screen, intuitive layouts, instant access to manuals, bills of material, drawings, infinite tool overlays, and much, much more. This incredible upgrade is available for all BMG thermoforming platforms, old and new, and is just the beginning of what's available. Look into all of the other upgrade options that are available at oneBMG.com.

Maintenance Kits - be proactive and save the day.

Being the solution ahead of the storm is the name of the game. Performing preventative maintenance is easy when you have all the parts you need. BMG knows that one of the biggest hurdles in modern-day manufacturing is eliminating downtime. Sometimes, this is difficult to avoid. Make sure you keep a good inventory of the necessary wear items on your shelves so you can be the hero when it comes to keeping everything up and running in a fast-paced thermoforming production environment. Planning and executing

PRESS RELEASE

preventative measures keep you and your equipment out of harm's way, and getting that process to work for you means keeping what you need at no more than an arm's length away. Get what you need now from BMG's vast global network of parts supplies. At BMG, their goal is to help you minimize your downtime by getting you the parts you need as quickly as possible. They carry one of the largest parts inventories in the world.

Replacement Parts - if you need it, they probably have it.

Whether it's something BMG has manufactured or whether someone else has supplied you with technology, BMG can help you out. On the subject of maintenance, service, and parts, one of BMG's most significant accomplishments realized in 2024 was to improve client access to their worldwide inventory of replacement parts. To date, they have put in market the most parts ever in the company's history. They like to tell their partners that if you need it, they have it; if they don't, they will engineer and make it. It's all about keeping their clients up and running 24/7/365. Whether you're working with old or new equipment, BMG can get you whatever you need to do the job right.

"We bring more experience, innovation, customer service, and technical support than any other company in the US or the world, for that matter. The experts who make up BMG are the best in their fields and have seen it all. If our customers have a question? We have the answer," said BMG CCO, CIO Jake Kowalewski.

To lead an industry, you have to create technological advancements that allow manufacturers down the line to engineer unique solutions for their customers. Incredible market growth and key market indicators have paved the way for BMG to introduce an enhanced manufacturing process across various sectors, including food, medical, electronics, horticulture, and ancillary packaging. Be sure to visit their website at oneBMG.com to explore and learn more about these advancements, which are detailed and showcased comprehensively. Advancements in technology and new patents have led to significant improvements in fit characteristics and sustainability, which are driven by their engineering process improvements.

BMG remains steadfast in its dedication to supporting customers seeking thermoforming packaging and automation solutions. With a keen focus on detail, BMG delivers comprehensive end-to-end solutions, prioritizing shorter development timelines, enhanced ROI, reduced operational costs, and unmatched global service commitment.

ABOUT BMG

Headquartered in Beaverton, Michigan, USA. The new BMG is an award-winning thermoforming packaging/automation solutions leader focused on a customer-centric approach. We develop solutions that meet and exceed the unique requirements of each customer's application. BMG is a global organization representing the world's most extensive thermoforming portfolio, with international assistance available 24 hours a day. Operating

in major verticals that include automotive, medical, electronics, horticulture, food, and process automation, we bring to bear on each solution over 50 years of technological experience! BMG operates facilities and offices throughout North America, South America, Europe, the UK, Asia, and the Middle East. **Learn more at oneBMG.com, follow @oneBMG on LinkedIn, follow @wearebm on Instagram, and like @oneBMG on Facebook.**
