## PRESS RELEASE

March 15, 2025

### **ChinaPlas 2025. BMG will showcase its new global brand identity and industry-leading plastic thermoforming and robotic technologies.**

Beaverton, MI (March 15, 2025) – BMG is a global leader in full-service thermoforming packaging and automation technology. This group of highly skilled personnel has historically been the leader in the development and manufacturing of industry-changing improvements for the entire thermoforming end-to-end processes, which has benefitted manufacturers of packaging products for years. BMG continues to engineer innovations that provide its customers with world-class technology solutions, shorter developmental lead times, and outstanding executional design flexibility.

Welcome to ChinaPlas 2025, and welcome to the new BMG. In case you haven't heard, BMG, a major global thermoforming manufacturer located in the US, has acquired and integrated a select group of highly respected, leading international brands — **GN, Brown, Lyle, Freeman, and NAS** — to form one global company. Together, they are BMG, **one BMG**. They bring more experience, innovation, customer service, and technical support than any other company in the US or the world. BMG is dedicated to delivering the most innovative and sustainable turnkey and custom solutions for the thermoforming packaging industry that will improve consistency, push productivity, and elevate profitability. Not only will BMG be showcasing its new brand identity, but it will also be celebrating the launch of its contact heat cut-in-place GN3625DX Contact Heat Thermoformer, GN3625RSX Robotic Stacker, and showcasing their incredible performance capabilities. **Stop by booth #C51 at ChinaPlas 2025 in Shenzhen World Exhibition & Convention Center (Bao'an), PR China No.1 Zhancheng Road, Fuhai Street, Bao'an District, Shenzhen, April 15-18, 2025, to experience the new BMG.** If you are interested in all things plastic thermoforming, automation, and sustainability, this is one experience you won't want to miss out on. Stop by and say hello.

BMG invites visitors to experience and explore its product lines at this year's ChinaPlas Show. Attendees can immerse themselves in the new BMG branded experience, which provides a visual tour of what BMG offers. For more information about the 2025 ChinaPlas Show and BMG's involvement, visit [www.chinaplasonline.com](http://www.chinaplasonline.com).

Stop by their booth #C51, and they will answer all of your questions about thermoforming, the process, the solutions, and the avenues to travel down in order to get the best possible outcome for your packaging and automation needs.

## PRESS RELEASE

“Our goal all along has been to build a cohesive, clear, and concise brand identity that will support our new technology platforms from one unified, cohesive global brand and a unified effort to supply clients with a true one-stop shop for the entire thermoforming process. One that is clear in the minds of our global customer base and free from any confusion. We will be talking to everyone who wants to know about it so we can better explain the how and why of it all,” said BMG COO/CIO Jake Kowalewski.

To lead an industry, you have to create technological advancements that allow manufacturers down the line to engineer unique solutions for their customers. Incredible market growth and key market indicators have paved the way for BMG to introduce an enhanced manufacturing process across various sectors, including food, medical, electronics, horticulture, and ancillary packaging. Be sure to visit their booth to explore and learn more about these advancements, which are detailed and showcased comprehensively. Advancements in technology and new patents have led to significant improvements in fit characteristics and sustainability, which are driven by their engineering process improvements.

BMG remains steadfast in its dedication to supporting customers seeking thermoforming packaging and automation solutions worldwide. With a keen focus on detail, BMG delivers comprehensive end-to-end solutions, prioritizing shorter development timelines, enhanced ROI, reduced operational costs, and unmatched global service commitment.
