PRESS RELEASE

May 4, 2025

BMG & Janfrex together, solving for a packaging engineering revolution for the future.

Beaverton, MI (May 4, 2025) – BMG is a global leader in full-service thermoforming packaging and automation technology. This group of highly skilled personnel has historically been the leader in the development and manufacturing of industry-changing improvements for the entire thermoforming end-to-end processes, which has benefited manufacturers of packaging products for years. BMG continues to engineer innovations that provide its customers with world-class technology solutions, shorter developmental lead times, and outstanding executional design flexibility.

This year, BMG is having Jesus Avelar and his team from Grupo Janfrex represent their interests at the Expo Pack Guadalajara 2025. They will be showing new product videos and discussing the BMG/GN 3021 and 580 with anyone who has questions about their unique engineering capabilities. This is the largest packaging and processing show in Latin America and will take place June 10–12 at Expo Guadalajara, Guadalajara, Mexico. So stop by Janfrex Booth #J-3024 and see what the excitement is all about. Organized by PMMI, the Association for Packaging and Processing Technologies, this year's edition is the largest in the event's history, boasting over 18,000 square meters of exhibition space and 700+ exhibitors showcasing cutting-edge solutions.

“EXPO PACK Guadalajara 2025 is a game-changer for the Latin American packaging and processing industries,” says Celia Navarrete, Director, EXPO PACK. “With a record-breaking number of exhibitors and new pavilions focused on containers & materials and digital transformation, this event offers unparalleled opportunities for attendees to discover innovative solutions, gain critical insights, and connect with global industry leaders.”

In an effort to remain at the forefront of plastics thermoforming and the ever-growing Latin American plastics manufacturing developments, BMG has asked Grupo Janfrex to be on hand to answer any questions the business community might have regarding BMG's product lines and expertise. EXPO PACK Guadalajara will feature more machinery than ever, which is right in BMG's wheelhouse when it comes to supplying true end-to-end solutions for whatever manufacturing process you are trying to implement or augment. This show will have the most comprehensive solutions under one roof, tailored to meet today's growing Latin American business needs. As one of 700 exhibitors, BMG will showcase packaging and processing solutions for over 12 vertical markets. Because BMG caters to the global market, attendees can gain from their global expertise for areas including Argentina, Canada, China, France, Italy, Spain, Taiwan, Turkey, and the United States.

BMG and Grupo Janfrex will be available for any inquiries at their booth #J-3024 at the EXPO PACK Guadalajara 2025, which will take place June 10–12 at Expo Guadalajara, Guadalajara, Mexico. You won't want to miss this.

Besides the experience at the show, take a few moments in your downtime and get a look at BMG's new website at oneBMG.com. The new site has been designed to offer the ultimate user-friendly experience with improved navigation and functionality while allowing customers to see the entire product portfolio that BMG has to offer. The new BMG site was launched in September 2023. As part of this launch, they are also showcasing their new rebranding efforts that will unify all of their internal corporations and respective manufacturing disciplines.

“Our goal all along has been to build a cohesive, clear, and succinct global brand identity that supports a unified effort to supply clients with a true one-stop shop for the entire thermoforming process. One that is clear in the minds of our global customer base and free from any confusion,” said BMG COO/CIO Jake Kowalewski.

PRESS RELEASE

In order to lead an industry, you have to create advancements in technology that allow manufacturers down the line to create unique solutions for their customers. Incredible market growth and key market indicators have created an opportunity for BMG to bring to market an improved process for manufacturing in all food, medical, horticulture, and ancillary packaging verticals that are all spelled out and showcased at their booth. Advancements in technology and new patents have led to significant improvements in fit characteristics and sustainability, driven by their engineering process improvements.

Some of BMG's new brand efforts have to do with sustainability. One of their main drivers in engineering new manufacturing solutions is to constantly allow for production improvements and sustainable applications to see how they can assist customers in reducing their carbon footprint, address their sustainability concerns for the future, and engineer smarter.

BMG continues its commitment to assisting customers in need of thermoforming packaging/automation solutions with an acute awareness and attention to detail when it comes to providing these end-to-end solutions while taking into account the need for shorter developmental timelines, increased ROI, reduced cost of doing business, and an unparalleled service commitment rivaled by none worldwide.

ABOUT BMG

Headquartered in Beaverton, Michigan, USA. The new BMG is an award-winning thermoforming packaging/automation solutions leader focused on a customer-centric approach. We develop solutions that meet and exceed the unique requirements of each customer's application. BMG is a global organization representing the world's most extensive thermoforming portfolio, with international assistance available 24 hours a day. Operating

in major verticals that include automotive, medical, electronics, horticulture, food, and process automation, we bring to bear on each solution over 50 years of technological experience! BMG operates facilities and offices throughout North America, South America, Europe, the UK, Asia, and the Middle East. **Learn more at oneBMG.com, follow @oneBMG on LinkedIn, follow @wearebmg on Instagram, and like @oneBMG on Facebook.**
